CAIRO TIMES.

CAIRO, TUESDAY, NOV. 28, 1865.

THE CITY.

OUR CIRCULATION. The circulation of the Daily Times is now much

larger than that of all the other Cairo papers combined, and it is constantly increasing. By virtue of its circulation in the city, and in accord ance with the law of Congress requiring the "Letter List" to be published in the paper having the largest circulation within the range of the local Postoffice the Times has been awarded the printing of the Post-office Department as the following communication will evi-

dence:

Post Office, Carro, July 10, 1965.

To H. L. Goodall, Esq., Editor and Publisher of the 'Cairo Daily Times.'

Sia,—Your paper has again been selected in which to publish the 'Letter List' of this office, on the ground of its having a larger circulation than any other paper within the delivery of the Cairo Post office. You are authorized to continue the publication of said Letter List as heretofore, on the terms and conditions as specified in the Post Office law and instructions.

Respectfully,

J. C. SLOO, Postmaster.

PERSONAL .- Hon. Emerson Etheridge passed through Cairo on last Sunday on his way to Washington. He called at the TIMES offic.

Dan. Munn left the city yesterday for Washingion to spend several days. We suppose his object is to see the sights and witness the assembling of Congress.

INSURANCE.-The Niagara and Ben. Stick ncy, recently lost, were both uninsured. They belonged to the Atlantic and Mississippi Steamship Company-a Company that believes it more profitable to run the risk of losses than to insure. Perhaps they continue to think so, and perhaps after a few more losses, they will think better of it.

PREPARING TO REMOVE,-Rittenhouse & Hanny are preparing to remove at an early day into their new building, corper of Commercial ayenue and Eighth street. They desire to close out, at their old place of business, the whole of their old stock, if possible, so as not to put old cloth into a new garment. They will therefore sell very cheap, and great bargains can be had there this week. Go.

AMUSEMENTS .- Amusements do not prosper much in Cairo just now. The stock company at the Theatre could not get support enough to hold it together. The Leslie May benefit was a heavy failure, and benefitted nobody. Last night the announcement that J. Birney Marshall would give a recitation drow a pretty respectable house. It is doubtful whether a good company could secure permanent support in Cairo. It is certain a poor company cannot. We do not know what would draw good houses, setting as.de the first-class stars, unless, perhaps, the old lady who runs the Gem saloon could be induced to appear as a model artiste.

THE LEVEES .- Very few of our citizens have a proper idea of the magnitude of the work now being performed by the Cairo Property Trustees, upon the protective embankments encircling our city. A force numbering about one hundred and twenty-five men and fifty teams are now at work upon the Mississippi levee, and will continue so long as the weather

If any of our citizens have apprehensions as to the efficiency of our levees in that quarter, whether as to night or thickness, a view of them, as now being constructed, will certainly dissipate all fears in the premises. They are not only about six feet higher than the crest of the highest flood ever known in this locality, but present a thickness, easy outside slope and general solidity that at once guarantees the

most perfect security. The daily outlay by the Trustees on this portion of the levee will fall but little short of six hundred dollars. The present large force has already been engaged several months, and we e informed that it is the purpose of of the Trustees to push the work vigorously until completed. A few weeks more of fair weather,

and this will certainly be accomplished. The work, or rather the force of laborers. is under the control of P. Corcoran, Esq., an old and skillful contractor, and when finished will certainly bear proper testimony as to his fitness for the position he is occupying.

GASLIGHT .- Among the multitude of public erata of health, comfort, convenience, safety, and economy, as the introduction of gaslight. and not only to families, but to every one who has occasion to use an artificial light-and who does not? The arrangements for affording this cheap but invaluable luxury to every citizen are now in process of rapid completion, and we expect to announce the introduction of gas as soon as the first of January next. We shall feel a thrill of joy and pride when we can see the streets of this city illuminated with gas and think the occasion of its introduction ought to be celebrated in

We spoke of health as one of the things which would be promoted by this improvediseases of the eye as the use of a poor artifi cial light, and besides this, it is well known that many of the oils in use are exceedingly noxious, if not poisonous in their exhalations, They require constant care, and there is no one who uses them constantly but suffers from it.

Gas light is not liable to this objection. We spoke of comfort. Who that ever has enjoyed the luxury of working by gaslight will not appreciate this point?

We spoke of convenience. This is a consideration which every housewife will especially make note of. No long row of lamps to be cleaned, trimmed and filled every morningno growling on account of broken chimneysno oil to be spilled on carpets-no evils or loss to be feared from carelessness of children or servants-in short, a whole train of annoyances

and troubles will disappear in a moment. We spoke of safety. When we did this we referred not so much to the clothes on fire, of furniture and dresses ruined life and often the destruction of large amounts of property. The Canterbury Hall fire was doubtless caused by the breaking of a kerosene lamp. Powers' livery stable was fired by the alling of a lighted candle. The St. Charles Hotel and the Perry House were both in danger the same night through the bursting of kerosene lamps. The last fire, on 7th street, was caused in the same way. There is little doubt that the general introduction of gas

We spoke lastly of economy. This with most is the strongest point, and it certainly is with the gas company. The price of this material has been fixed at \$3,50 per 1000 feet. and the government tax. This will make the gross cost to consumers \$3,80 per 1000 feet -Now different burners consume different quantities, from three to eight feet per hour. The

THE GOVERNMENT SALE. - The Government sale of boats and other Naval property, on the 29th, is one of the last chances. The Army and Navy Journal says this will be the last sale of boats It is a rare opportunity. Be sides the boats, there will be sold a large quantity of miscellaneous material, which is speciled in the advertisement.

The Government sale of Railroad iron i ostponed until further notice.

THE MEDICAL RELIEF SOCIETY .- This Society net at the office of Drs. Taggart & Castle yesterday. There was quite a large attendance of indigent patients, white and colored, to whom relief suited to their various ailments were administered. The need of such provision as these philanthropic physicians have voluntarily undertaken to furnish is very manifest, and undoubtedly will become more so as their efficiency, generosity and professional skill become known among the poor. They will not only prescribe for the sick but perform necessary surgical operations whenever requisite.

NEW LOTIONS.-We desire to call attention to the advertisements in to-day's paper of two new articles not before introduced to our readers : the one is the Aqua de Magnolia, a preparation for the toilet, manufactured from the rich Southern magnolia, the delightful fragrance of which any one who has ever known can never torget, and most especially welcome any preparation which will afford them the subtile aroma in such form as to be useful for

The other article is likewise a preparation from the magnolia, which seems thus to be achieving as noble a reputation as a remedial agent as for its beauty and its odor. We refer now to Hagan's Magnolia Balm, which is offered to our citizens as a valuable cosmetic. It certainly must be a pleasant thing to try, and since its effects are said to be certain and complete, rendering the comolexion fresh, transparent and smooth, it must become very popular.

Drake's Plantation Bitters are so well known and appreciated in this community for their health-giving qualities, that any commendation from our pen would be as superfluons a earrying coals to Newcastle. They are for sale by all druggists.

Police Court.

B SHANNESSY, PRESIDING. Four shades of color, Annie Jones, Pusey Parker, Creesy Smith and Martha Corragan for mingling in such a manner as to disturb the peace, were fined \$5 each and costs. In default they were committed for nine days.

The mate and watchman of steamer Golumbian and two of the hands on the boat, were fined \$25 and perquisites. Samuel Price, for acting as a runner without

a license, and for conducting himself offensively, was fined in all \$15. He thought it wasn't tair, and appealed. Henry Bell, for extra fighting, was fined \$25

Passy Parker had been allowed to go away on parole to raise money to pay her fine. Instead of doing this she raised a row, indulged in abusive language and disturbed the peace some more. She was fined \$10 this time, and in default sent up. Paul Obissa, for selling liquor in his grocery on Sunday, was fixed \$15 and costs.

The Mississippi is still on the decline at St. Louis, and all the rivers above that port, as far as heard from, are n the same situation. The boats on the upper Mississippi are all making preparations to leave as soon as possible, and prepare for winter, The Illinois is so low as to make it necessary for all the boats to tow barges, being unable from the stage of water to carry any freight hemselves. The Missonri has a moderate stage of water considering the season of the year, but it is fast failing. At Pittsburg the Ohio is stationary, with three feet we inches in the channel.

The river is also failing at Chelianati and all the way out to Cairo. There is only four feet water reported In the channel, and about five feet from Louisville to Cairo. Here the decline is steady and at the rate of about seven inches in twenty-four bours. The weather is clear and de lightful, with heavy fogs and heavy frosts at night. Business is quite brisk, and every steamer bound southward receives here as much freight as she wants

The freight is received principally from the One river and railroad, aithough a few cargous have been sent out of the Mississippi from St. Louis in advance of, and or particular boats, Our thanks are due the officers of the Von Phul, Clara Doison and McPorter for late papers and manifests. person who was on the main deck of the Niagara was drowned, except a few who were awake and near stair ways. One hundred and fifty colored soldiers were frowned, and about fifty deck hands and fremen. The mate has only been able to find four men out of his whole crew. Several of the deck passengers were rescued after the boat sunk, by the surnivors cutting holes through the cabin floor. Only one cabin passenger was drown ed, and he lost his life by jumping overboard in a fright. Mr. Farnsworth says that he came through the cabin just as the Niagara was going down, and shall never forget the awful shricks and cries for help of the poor creares immediately under his fect, as they struggled in their last agonies with the treacherous element that was

fast overwhelming them. The following is copied from the St. Louis Republican : THE ST. LOUIS, CAIRO AND JOHNSONVILLE PACKET COMPANY.—This Company, so recently incorporated by the Legislature, will be fully organized during the present week. The line has been in operation since September 1st, since which time the value of the route to passengers and shippers has been demonstrated, and it is of vast importance to the trade of our city, as the published comments have shown. It will be better shown to Nashville when our merchants will remember the immense trade by that line which passes our very doors and goes to St. Louis and Cincinnati. On yesterday there were traine by that fine which passes our very doors and goes to St. Louis and Cincinnati. On yesterday there were about 800 tons of freight at Johnsonville for Southern cities. And here let us say a word about the tax law. The two per cent. tax law is driving trade from the State, and making rascate out of a large class of traders, who receive and sell consignments of their own goods. But, to digress no farther.

The Dooks will be placed in the hands of Mr. M. Burns, and the incorporators of the proporators of the proporators.

The Dooks will be placed in the hands of Mr. M. Burns, one of the incorporators, for subscriptions to the capital. St. Louis pladges herself to take a large share of the stock, and to do all that may be necessary to sustain the line. And St. Louis is a live town, with far-seeing and enterprising herchants, who look upon this line as exceedingly promising, and destined to be a source of great profit. Paducah has promised to take her share of the stock. She subscribed \$50,000, and paid it, to sustain a daily line of steamers to Evansville, with which the Johnsonville line regularly connects. The reduction of freights, which every person knows. of freights, which every person knows, has been enormous. " GREAT OAKS FROM LITTLE ACCESS GROW."-Th worst diseases known to the human race spring from causes so small as to almost defy detection. The vol-umes of scientific lore that fill the tables and shelves of the medical fraternity only go to prove and elaborat these facts.

Then guard yourself while you may. The smallest pimple on the skin is the tell-tale and indicator of discase. It may fade and die away from the surface of the body, but it will reach the vitals, perhaps, at last, and death be the result and final close. PROPOSALS FOR RAISING SUNK. SISSIPPI RIVER AND TRIBUTARIES.

TRHASCRY DEPARTMENT,

OFFICE SUPERVISING SPECIAL AGENT, 2D AGENCY,

MEMPHIS, TENN., November 30th, 1865.

In pursuance of instructions from the Secretary of the Treasury, all bids heretofore received for "raising, wrecking and the delivery of sunken vessels, &c., on the Mississippi river and tributaries," have been rejected, and new advertisements ordered, with a view of securing wider competition. Sealed proposals will be received at the office of the Supervising Special Agent, at Memphis, Tenn., until December 15th, 1865, at 12 M., for "raising, wrecking, and delivering at convenient ports, flats or barges, or parts thereof, in any part of the Mississippi river or its tributaries below Cairo."

The following points will be observed by parties making such proposals:

1. The Government desires to restore the streams in question to an early navigable condition, so far as the estion to an early navigable condition, so far as

question to an early navigable condition, so far as the removal of the sunken vessels can do it.

II. All vessels, boats, or parts thereof, will be delivered at one of the following named ports: Natchez, Vicksburg, Yazoo Gity, Miss.; Little Rock, Helena, Ark.; New Orleans, Alexandria, La.; Memphis, Tenn.; and will there be sold upon due public notice, and contractors will be compensated out of the proceeds of such sales. Proposals may cover the whole work, or be confined to the work in one or more of the rivers.

III. Proposals will include: The raising, wrecking III. Proposals will include: The raising, wrecking and delivery at either of the designated ports of all sunken vessels, whether, Steamers, Gunboats, Barges or Flats, and whether sunk by the United States or rebel Flats, and whether sunk by the United States or rebel forces, and whether of material value or not; and the removal of all hindrances to navigation caused by the sunken vessels, and the thorough clearing of the channels as far as they are obstructed by the same; and must stipulate to commence the work as early and push it forward as rapidly as the stage of water will permit.

IV. Each proposal must, therefore, distinctly set forth the names of the streams in which parties propose to operate, and specify the lowest percentage of the net proceeds of sale of the vessels, &c., so raised and delivered at either of the designated places of delivery, for which they agree to do the work.

V. A deposit of Five Thousand Dollars (\$5,000) will be required from each of the bidders at the time of bidding, to ensure the good faith of the bid and the carrying out of the contract, (if awarded); and satisfactory reference must be given, also, as to the ability and good

reference must be given, also, as to the ability and good faith of the bi-der to perform the work in question. The sufficiency of the references must be officially certified by the nearest officer of the Customs.

VI. Forms of proposal (a copy of which see below) and envelopes, properly addressed and indorsed, have been prepared and forwarded to each of the Surveyors of lustoms at Pittsburg. Wheeling Cincipati of ustoms at Pittsburg, Wheeling, Cincinnati, Louis ville, Chicago, St. Louis, Cairo and New Orleans, which

will furnish them upon application.

VII. Proposals will be opened on the 15th of December, prox., at 12 M., and the award made as soon as approved by the Secretary of the Treasury.

VIII. The sums deposited by unsuccessful bidders will be returned when the contract is awarded; the deposit on the part of the successful bidder or bidders will be retained to be forfeited to the United States upon non-compliance with the terms of the contract, or refunded compliance with the terms of the contract, or refun-upon the faithful completion of the work.
